Dot,  
Our completion of the 2016 Demonstration has been delayed. Mike Baca was promoted to my former position, Control Strategies Manager, in December and has had to do both jobs until his position in Las Cruces is filled. Mike will provide a separate response on when he anticipates completing the draft for public comment.  
Thanks,

Kerwin C. Singleton

Kerwin, Fran told me about your conversations on the future Demonstration for the PM10 2015 exceedances and I understand we will be receiving the Demonstration for the PM10 2016 exceedances first.

During the 2018 Initial Notification process we agreed to 4/1/19 as a target date for the PM10 2016 Demonstration submittal. Is this still a good target date?

I looked on the NMED website and did not see a Public Notice for the demonstration but maybe I missed it. Thanks
